WIRING DIAGRAM

PROGRAMMING INSTRUCTIONS:

- 1. TO SET FIRST ZONE:** For watering, push gold pin into slot on yellow dial at desired ON time. For each 12 minutes of additional watering add one pin WITHOUT skipping a slot.
- 2. TO CHANGE ZONES:** Leave one blank slot on yellow dial after ON line (gold pin), and valve will automatically advance to next zone.
- 3. TO SET ADDITIONAL ZONES:** Repeat steps 1 and 2. REMEMBER to leave blank space between zones
- 4. TO SET TIME OF DAY:** Turn yellow dial CLOCKWISE, until correct line is at end of silver time pointer. Do NOT turn silver pointer.
- 5. TO SKIP DAYS:** Turn black skipper wheel COUNTER-CLOCKWISE until today's day is in front of "14" arrow. Press pins DOWN on days of NO watering. The skipper wheel must have all pins UP for daily watering.
- 6. PUT SELECTOR SWITCH IN AUTO:** This switch can be used to turn the system ON or OFF for manual operation without affecting the set program.

IMPORTANT NOTICE: Use the one silver pin that is located at Midnight on the yellow dial, it advances the skipper wheel automatically. Do NOT use multiple silver pins.

Follow The National Electrical Code and local code requirements when installing this time switch.

CAUTION: Always disconnect power at main panel before servicing this Switch or the equipment it controls.
